***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

The inventions are distinct, each from the other because of the following reasons:

- I. Claims 13-20, 37-44, and 61-68 drawn to a system for tracking wireless devices in a database, classified in class 345, subclass 767.
- II. Claims 1-12, 21-36, 45-60, and 69-72 drawn to a system for displaying scheduling situations to a user in a calendar system, classified in class 345, subclass 963.

2. Inventions 13-20, 37-44, 61-68 and 1-12, 21-36, 45-60, 69-72 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention 13-20, 37-44, 61-68 has separate utility such as tracking wireless devices in a database. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A telephone call was made to David Victor on 03/23/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2174

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
